Project Name	EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Discover Learning Need	Stage 2 Use EduGenie	Stage 3 Review & Continue Learning
Actions <i>What does the customer do?</i>	- Identifies a difficult topic. - Searches for learning support. - Decides what help is needed.	- Opens EduGenie. - Selects a suitable feature. - Enters a question, topic or content.	- Reads the generated result. - Practises or revises. - Chooses the next learning activity.
Touchpoint <i>What part of the service do they interact with?</i>	- Search engines. - Learning resources. - EduGenie website.	- Feature cards. - Input forms. - Generated AI response.	- Quiz and summary results. - Learning path. - Concept explanation / Q&A.;
Customer Thought <i>What is the customer thinking?</i>	- How can I understand this quickly? - Which resource should I use? - I need focused help.	- Can this answer my question? - Is the explanation clear? - Can I use this for study?	- Did I understand it correctly? - What should I revise next? - Can I keep learning here?
Customer Feeling <i>What is the customer feeling?</i>	- Confused. - Curious. - Time-pressured.	- Hopeful. - Engaged. - Relieved when the response is useful.	- More confident. - Satisfied. - Ready to continue learning.

Process Ownership <i>Who is in the lead on this?</i>	Student identifies the learning need and selects the appropriate EduGenie feature.	EduGenie application processes the request and provides the AI-generated learning support.	Student reviews the result, practises and decides the next learning activity.
Opportunities <i>How can we improve this stage?</i>	• Make the entry point simple. • Clearly show learning features. • Guide students to the right feature.	• Keep inputs simple. • Provide clear generated results. • Keep the interface responsive and easy to use.	• Encourage continued practice. • Provide structured learning guidance. • Add history and progress tracking in future.
